We know that many people are feeling the financial impact of Covid-19, so we've launched our new Community Grocery to help bring down the cost of the weekly shop, and the good news is your postcode is eligible to join the Lincoln Community grocery.

HOW IT WORKS

Step inside and you'll find shelves packed with the same range of products you'd expect to see in your local supermarkets, including fresh fruit and vegetables, tinned goods, baked items, frozen food, plus fridge, sanitary and household items.

HOW IT WORKS

Anyone can become a member of **Lincoln Community Grocery**.

It's just £5 for a year's membership, meaning you can then shop in the grocery up to 3 times a week for just £3 each time.

And there's more than just food! All of our members get access to loads of free courses that are perfect for anyone interested in learning a new skills, meeting new people or helping you find your next job.

Where the food comes from?

Lots of the items we stock are donated to us by local supermarkets wanting to support their community. The food is all great despite some products having slight packaging errors or ending up too close to their best before date for them to sell.

"Being part of the Community Grocery has been such a highlight in what has been a very difficult year. Not only do we as a family save loads each week on our food shop but we also get to try out lots of new fruit and veg options which the kids have loved. It feels like a green grocers you went to as a child with everyone so welcoming and helpful."

COMMUNITY GROCERY MEMBER
