They are 16/18 ratings for a reason!!

Social Media apps

Did you know that the following age restrictions apply?

Age 18 (or 13 with parent's permission): YouTube, Flickr, Keek

Age 16: Whatsapp

Age 13: Twitter, Facebook, Snapchat, Instagram, Reddit, Tumblr, Google+, Pinterest

Why?

- We are teaching them that it is OK to ignore age restrictions and lie about our age.
- Everything they put online is visible to future employers.
- It opens them up to 'grooming' – children may not be able to say no and make safe and sensible choices.
- They may unknowingly give away personal information.
- It exposes them to age-inappropriate advertising.
- Allows cyber-bullying from peers and 'trolls'.
- Pretending they are 13 now, will make people think they are 18 far before they are, making them vulnerable.
